

LINEAR-12 ELITE

Quite simply the ultimate in low profile auxiliary LED lighting, the Linear-12 Elite can be mounted as a single lamp fixture or in pairs, for an ECE approved solution that provides superior levels of light output, optimised for everyday road use, where either space is a limiting factor in regards any installation, or the preference is for a sleek, aerodynamic solution to get noticed more at night than during the day. The Linear-12 Elite utilises a combination of highly efficient 3W LEDs, the same as used in our 2018 WRC lighting solutions, which together deliver 8,100 lumens, and 1 lux to 400m.
